

GasAlert MicroClip

multi-gas detector

GasAlert
MicroClip X3

Guaranteed to run for an entire shift — even in harsh weather.

NEW!
GasAlertMicroClip X3 with 3-year warranty and new O₂ sensor for longer life expectancy.

NEW!
GasAlertMicroClip Series now features IP68 for maximum water and dust protection.

GasAlert
MicroClip XL

Small size. Easy to use. Reliable operation. Affordable protection.

With that combination of benefits, it's no wonder the GasAlertMicroClip is the world's most popular multi-gas detector, serving as your trusted companion in hazardous environments — keeping you safe without weighing you down.

Plus, it's the first multi-gas detector with a rating of IP68 for unmatched water protection. So you can be confident it will stand up to challenging conditions.

Choose from two detectors, both with extended 18-hour battery runtime, one-button operation and Honeywell's rigorous approach to quality:

GasAlertMicroClip XL: low up-front cost with a two-year warranty.

GasAlertMicroClip X3: three-year warranty and a new oxygen sensor that extends overall operational life expectancy.

Continuously detect up to 4 gas hazards:

H₂S

CO

O₂

LEL

Easy To Wear

Easy to Read

Easy to See

Use our unique advanced technology for safety, compliance and productivity.

- Advanced engineering for reliable battery performance
- Reflex Technology™ automated self-test function routinely checks the operating condition of the sensors to increase safety, up-time, and overall worker confidence
- Compact, lightweight and easy to use — no expertise required
- Flashing green IntelliFlash™ light for compliance at a glance
